## More Coal Orders Asked

The meeting held in Cole's theatre on Wednesday afternoon to discuss securing more coal orders for Blairmore, Bellevue and Maple Leaf was addressed by Rev. Roy Upton, Rev. A. B. Larker, J. McLean, L. L. Morgan, and S. Magdall, chairman.

A committee of twelve was appointed to devise the method to follow in presenting the meeting's views to the Federal government, and to report in Bellevue on May 1. Telegrams were sent to E. O. Duke, M. L. A. H. H. Stevens, M. P., E. C. Hannell, M. P., and J. H. Blackmore, M. P., requesting them to come to the Pass and meet operators and business men to discuss the matter.

## Homing Club Officers

Coleman Representatives Appointed to Western Federation.  
Representatives of Homing Societies met in Lethbridge on April 17, when the following officers of the Western Canada Homing Federation were appointed:

J. Kerr, Lethbridge, president; P. Walsh, Cranbrook, and C. Makin, Coleman, vice-presidents; G. Jackson, Calgary, secretary-treasurer. The Federation council consists of E. Badington, Coleman; M. Garside, Cranbrook; W. Masson, Lethbridge; A. Dykes, Lethbridge; J. Norbury, Calgary, and R. Haden (transportation), Calgary.

The main objective of the Federation is to organize combined races of all clubs at distances of approximately 600 and 800 miles. Legislation will also be sought for the protection of homing pigeons and the sport generally.

## THERE'S MUSIC IN THE AIR---CROWS NEST PASS ORCHESTRA

This group under W. H. Moser, well-known violin and orchestra instructor, has often been heard in concerts and musical festivals and quite recently played in Lethbridge. They are indeed a credit to themselves and to Mr. Moser who has given considerable time and energy in developing these instrumentalists.

## Mrs. Barringham's Funeral

The funeral service for Mrs. Barringham was held in St. Alban's church at 4 p.m. on April 14, Rev. A. S. Partington, B.A., conducting. The Rebekah Lodge observed their ceremonial rites at the graveside. The pall-bearers were from the Elks' Lodge, of which Mr. Barringham is an officer; they were R. Bell, M. Opuiski, D. A. Webster, J. M. Rushton, N. Burtinik, H. Tibergien. There was a large number of floral tributes from organizations, relatives and friends.

Hymns sung at the service, which was choral, with Mrs. Clifford at the organ, were, "Sun of My Soul," "On the Resurrection Morning" and "Rock of Ages." The church was filled with sympathizers and friends.

## Joe Fisher's Big Chance

Joe Fisher, husky right winger of Canadians hockey team, confirmed reports this week that he would be given a try-out with Boston Bruins at their training camp at Hershey next fall.

Last week while attending the Allan Cup games, Fisher was approached by Art Ross, manager of Boston Bruins, and as a result of the conference Joe will get his chance to step up into the big time.

Fisher is fully aware of the value of this opportunity and even since he started hockey it has been his ambition to improve his ability so that when the opportunity did come he would be ready to take the step. All hockey fans join in wishing Fisher every success.

## Don MacNeil Writes

A letter recently received from Donald J. MacNeil, who was Liberal candidate in the provincial election of 1935, for Rocky Mountain, and who is now petroleum geologist in the Exploration office of the Shell Petroleum Corporation at Tulsa, Oklahoma, states: "It is needless to say that I will look forward eagerly to each copy of The Journal, because it serves as a tie to old friends and old surroundings that are ever a pleasant memory. Please extend my regards to mutual friends in the Pass, and accept my very best wishes for continued success with your newspaper."

### CARD OF THANKS

Thanks are expressed to the following for their kindness and ministrations during the illness of our dear wife and mother: Mrs. Borden and McLean, Rev. and Mrs. A. S. Partington, Mrs. J. Cassidy, Mrs. J. Maddison (Blairmore), Mrs. H. C. Craig, Sentinel; Mrs. A. Wyman, Sentinel, and to all who sent flowers, telegrams and letters; the B.P.O.E. lodge for assistance and Victoria Rebekah lodge.—Signed Frank Barringham, Oliver Barringham, J. Nash.

The product that is advertised in The Journal is worthy of your confidence.

## Leaving for Penticton

A farewell party was held in St. Alban's parish hall on Tuesday evening in honor of Mr. W. J. Harris, L.L.C.M., who is leaving at the end of the week with Mrs. Harris and family for Penticton, B.C., where they will reside in future. Mr. Harris has been teaching piano and violin in the Crows Nest Pass for many years, and has a very high reputation for his ability and artistic technique. His departure will be deplored by a large number of music lovers in the district.

The parents and pupils from Michel, B.C., Coleman and Blairmore were present to wish him God speed and every success in his new field of endeavour. A very enjoyable evening was spent playing games, after which there was a short musical program. Mr. Albert Crowder was chairman. During the supper hour Mr. Owen Jones presented a handsome electric lamp to Mr. and Mrs. Harris. The evening concluded with singing "For He's a Jolly Good Fellow."

W. Martin, of the Western Grocers, Lethbridge, was here on a business trip and called on W. A. Vaughn, local representative.

## \$200 Needed To Reach The Objective

Merchants Asked to Support Coronation Fund With Liberal Donations.

Up till Thursday morning only a small section of the business area had been canvassed, but by the end of the week it is expected that the donation list will have been completed. The finance committee set as their objective among the stores and business men \$150. Various lodges have given from \$10 to \$25 each, the town and school board each \$100. \$200 has yet to be raised to make up the \$500 required to put on a celebration worthy of the town.

Coronation Day Service and Program

# Labor Troubles And Doughhobor Vandalism Cause Ottawa Concern

Ottawa. Labor trouble in Ontario and fresh depredations of the Doughhobors of British Columbia cast slight shadows across preparations of the Dominion government for the dual mission that will take nearly half the cabinet to London.

The prime minister and his colleagues remained officially aloof from the discussions arising from resignations of two Ontario cabinet ministers at the request of Premier Hepburn because of differences of opinion with respect to the General Motors strike at Oshawa.

Members of the government also withdrew entirely from activities associated with efforts to settle the labor dispute at Oshawa, and refrained from comment on the charge of Premier Hepburn they were "adopting a vacillating policy."

Highlight of the week was the withdrawal from Toronto of a mounted police detachment sent to that city at the request of Mr. Hepburn. When he asked for reinforcements and was refused by Justice Minister Ernest Lapointe, Mr. Hepburn asked that those already there be withdrawn and his request was acted upon as quickly as had been his original appeal for the detachment to be sent to the Ontario capital.

Premier T. D. Pattullo of British Columbia advised the prime minister Saturday of conditions in that province arising from activities of the Doughhobors reported hindering progress of work near Grand Forks where a radio beam station was being installed for trans-Canada air service. No request was made for assistance to maintain law and order.

It was stated, and the contents of Mr. Pattullo's representations were being considered by the government during the weekend.

Mr. Dunning, Mr. Rogers and Hon. J. G. Gardiner, minister of agriculture, will confer this week with two ministers of the Alberta government, Hon. Solon Low, provincial treasurer, and Hon. Lucien Maynard, minister of welfare. They will also continue discussions with ministers from Saskatchewan, who came to Ottawa last week.

These discussions have to do with relief and works projects and will probably take place with all the provinces, this being a matter for consideration following enactment of the federal government's yearly relief measure.

Prime Minister Mackenzie King and his colleagues, however, were little diverted from their usual routine and at three cabinet meetings last week completed their plans for the coronation, and for the imperial conference that will immediately follow it.

The Canadian picture generally was brightened by release of reports for the fiscal year ended March 31, 1937, showing Finance Minister C. A. Dunning's budget estimates of increasing trade and mounting revenues were justified.

The minister's estimate, made early in February, of a \$67,000,000 increase in taxation revenue was correct almost to the dollar, while export trade went over the \$1,000,000,000 figure; he was able to report for the calendar year of 1936, the highest level since 1929.

## Britain's Food Supply

### Wheat Holdings Amount To Three Months' Consumption

London. "Is it not probable, and almost certain, that a large proportion of essential supplies must come from the United States and Canada, as was the case in the Great War?" Baron Catto asked in the house of lords when the question of food supplies in war time came up.

Lord Templemore replied for the government. He referred to rumors of a wheat shortage in the United Kingdom, saying figures that showed only a 10-day supply referred only to wheat held in public warehouses at the various ports.

He expressed the opinion millers' stocks at present probably amounted to fully three months' consumption.

## A Peaceful World

### Lord Riverdale Speaks In New York On International Situation

New York. Lord Riverdale of Sheffield, Eng., declared in an address at the Bankers' Club here there would be no great war for at least 25 years.

"Japan, with her lavish war expenditures and recent acquisition of Manchuria, finds its acquisition easy to take but difficult to digest," said Lord Riverdale, vice-president of the international chamber of commerce.

"Japan is now making economic rather than military plans. Germany is rearming merely because she is surrounded by heavily armed nations. The Spanish situation, I think, need not give us any concern over becoming more serious."

# Premier Pattullo Sets June 1 As Election Date For B. C.

Victoria. British Columbia was given seven weeks to make up its mind on two questions its present political faith and its attitude toward state health insurance.

The provincial legislature was dissolved and Premier T. D. Pattullo set June 1 both as date for an election and for a plebiscite on the contentious insurance matter. Nominations will be made May 11 with a multitude of candidates already in sight.

The Liberal government, which sponsored the health insurance act of 1936 but postponed its operation in face of opposition from doctors and other bodies, restated its belief in an insurance measure but said it would be guided by the decision of the electorate.

However, on the question of the care of indigents, which doctors of the province declared should be included in any health measure, the government announcement said that was a separate question and should not be considered in the plebiscite.

The administration's manifesto said unbending effort would be made toward "amendment of our constitution for the mutual advantage of the provinces and the Dominion, and for the placing of this province in a position of equality with the other provinces in the confederation of Canada." It declared, "no other question before us is of such transcendent importance."

Of the 48 seats in the legislature just dissolved Liberals held 33 against 13 for other parties, with two seats vacant.

## Britain's Air Supremacy

### Leads The World In Number Of Combat Planes

New York.—The British Empire leads the world in the number of combat planes available "for an emergency," the 1937 edition of the Aircraft year book stated.

The ranking, an estimate because of official secrecy, placed the great nations in the following order of relative combat plane strength at the end of January, 1937: The British Empire, 4,000 planes; France, 3,600; Russia, 3,400; Italy, 3,200; Germany, 3,000; United States, 2,200; Japan, 2,000.

The term combat planes, explains the annual, published by the Aeronautical Chamber of Commerce of America, includes all armed planes, such as pursuit, bombing, armed scout and observation, armed patrol and transport, and reserves.

Man-power of some of the nations is given as: Great Britain, 52,000 personnel, with 4,500 active or qualified pilots; France, 50,000 personnel with 4,000 pilots; Italy, 43,000 personnel, with 3,600 pilots; Japan, 22,000 personnel with 2,300 pilots.

## Wants Peace With Russia

### Report Says Hitler Plans To Establish Friendly Relations

London. Joachim von Ribbentrop, German ambassador at London, will be transferred to Moscow and Soviet Foreign Commissar Maxim Litvinoff will be removed from his post in a move to establish friendly relations between Germany and the Soviet Union, the Star said.

The newspaper said Chancellor Hitler had decided to "make peace" with Moscow as a result of his loss of confidence in Italy's military power as demonstrated in Spain.

The next step will be the removal of Von Ribbentrop from London "where he has proved unpopular because of his Nazi salute to King George VI, at a recent levee and also because of alleged Nazi activities," the paper added.

Soviet leaders are in sympathy with the German move for improving relations and have agreed to remove Litvinoff, target of German press attacks because of his Jewish birth, the Star added.

## To Provide Leadership

### The British Empire's Solemn Duty To The World At This Time

London. — The British empire's solemn duty to the world at this time is one of spiritual leadership. Prime Minister Baldwin said in a series of talks on "responsibilities of empire."

Leadership was the most important need if peace and prosperity are to be achieved out of the present world bewilderment and doubt, he said.

The British empire was best qualified to provide that leadership, he said. "We have demonstrated that the world in actual practice that difficulties can be resolved by discussion as they cannot be resolved by force."

## AGAINST WAR PROFITS

Hon. J. L. Hiley, Minister of National Revenue, who told the House of Commons at Ottawa that steps were to be taken to limit the profiteering in munitions.

## For Musical Career

### Winnipeg Boy Impresses London Adjudicator At Festival

Winnipeg.—Lorne Munroe, 12-year-old Winnipeg 'cellist, is so highly regarded by Arthur Benjamin, adjudicator at the Manitoba musical festival, that the London critic offered to give him the "best musical education the world can provide."

Mr. Benjamin was so impressed with the boy's playing that he hopes to take Lorne back to England with him. The critic offered board and lodging at his home if a Winnipeg service club would undertake \$1,000 annual maintenance expenses.

"If Sir Hugh Allan of the Royal College of Music in England could hear the boy play just once, I'm almost certain a scholarship would be granted him," Mr. Benjamin said.

Lorne's career began when he was three. "Daddy, I want a violin with a leg on it," he said and the father, Wallace R. Munroe, commercial artist, put a "leg" on his own violin and gave it to the child. Lorne practices 2½ hours daily.

## Greetings From King George

### Duke of Gloucester Broadcasts Message To Overseas League Members

London. — A greeting from the king to members of the Overseas League in the dominions and India was broadcast by the Duke of Gloucester at a ceremony opening a new wing of the League's London headquarters.

The king's message said: "I am very glad to send a special message to the 49,000 members of the Overseas League in foreign lands. Please convey to all the members of the Overseas League in every country my congratulations on their now possessing this wonderful site for devoted service to the Empire and its people. I sincerely trust that in the years to come the society will grow in strength."

## THE CONFIRMATION OF PRINCE FLEMING

The recent confirmation of Prince Fleming of Denmark was attended by members of the Royal House. Here we see the young prince with his father and mother, Prince Axel and Princess Margaretha, after the ceremony.

# Sir Samuel Hoare Urges Powers To Limit Naval Armaments

London. Sir Samuel Hoare viewed the possibility of an unrestricted naval race with "grave apprehension" and said Great Britain would welcome an opportunity to ratify the London naval treaty of 1935 between Britain, France and the United States.

The first lord of the admiralty, speaking before the Royal Corps of Naval Constructors, voiced what some believed was an invitation to other powers to meet again across the treaty board.

"I should be lacking in my duty," he said, "if I did not ask other naval powers to think once again of the almost intolerable burden that will be placed on all our shoulders if some restriction is not placed upon the size and armament of warships."

"We have delayed our ratification of the London treaty not because we are not anxious to carry its proposals into effect but because we felt it necessary first to ensure accession of a sufficient number of naval powers. The United States have already ratified the treaty. How satisfactory it is to note that chapter in Anglo-American rivalry on the sea is forever closed."

Hoare continued: "It is satisfying that the Anglo-German agreement has prevented a repetition of Anglo-German rivalry upon the sea that was so formidable a feature of the years before 1914."

The agreement permits Germany to build her fleet up to one-third of Britain's floating strength.

He expressed the opinion "there is no reason why Great Britain and Japan, two ocean empires, should not resume friendly relations that were so satisfactory a feature of former years."

Urging the naval powers to avoid "unlimited, suicidal competition," Hoare said: "Let's show on sea, land and air that it is possible to make international agreements and to maintain them in the interests of ourselves and the world."

Sir Samuel said he was supported in the hope of Anglo-Japanese amity by "the encouraging fact that the unfortunate incident which has recently clouded the atmosphere between our two countries has been satisfactorily settled."

This referred to tension over the "Formosa Incident" last year when three British sailors charged they had been tortured by Japanese police at Keelung. The admiralty recently announced the incident had been satisfactorily settled.

## Alberta Dry Areas

### Movement Of 6,000 Families From East Central Part Of Province

Edmonton. — Movement of 6,000 families out of a 7,000,000-acre dry area in east-central Alberta and efforts to turn it chiefly to grazing were described to the Turgon royal grain commission by O. S. Longman, Alberta field crops commissioner.

Approximately 2,000 families are still in the area attempting to develop the land on a larger scale than farming. The work first discussed in 1925, was put underway in 1929 and 1930 because of drought and poor grain growing conditions.

Families who quit the area had moved to various parts of the province, mostly to the Peace River and northern areas, said Mr. Longman. All of them had selected the new locations to which they wished to go. No definite survey of their fortunes in their new homes had been made, he said.

The government aimed to limit the population in the dry area, under a land utilization program, to one person for every 40 acres. Reasonable success was being gained in the re-grazing program for development of cattle breeding, Mr. Longman said.

## Canadians In Coronation Choir

London. — Twenty-four Canadians from choirs in various parts of the Dominion will be included in the choir at Westminster Abbey for the coronation service. James Levy, member for Toronto's noted Hart House string quartet, was officially invited to be a member of the abbey orchestra for the service.

## Work Being Completed

### Dominion Department Of Agriculture Divided Under Four Heads

Ottawa. — Reorganization of the department of agriculture into four divisions, marketing, production services, experimental farms and science, is being completed, Hon. J. G. Gardiner, minister of agriculture, stated.

Each division will be under a director who will in turn be under the deputy minister of agriculture. Heading the marketing division will be Dr. A. M. Shaw, recently dean of agriculture at the University of Saskatchewan, who has been in the department for several months working on a new marketing setup.

The production services division will be under direction of G. B. Rothwell, present livestock commissioner. It will embrace services concerning livestock, poultry, seed, feed, fertilizers, crop protection and health of animals.

The experimental farms division will continue with its present organization and will be under direction of E. S. Archibald.

Scientific work not carried on at experimental farms will be placed under the direction of J. M. Swayne.

## Vessel Carried Explosives

Bordeaux, France. Fifty tons of explosives were found among 800 tons of merchandise aboard the French merchant vessel Charente, halted at Westminister Abbey for the coronation service. James Levy, member for Toronto's noted Hart House string quartet, was officially invited to be a member of the abbey orchestra for the service.

# Canada's Proposed New Airways Service In Organization Stage

Ottawa.—Initiation of Canada's proposed trans-continental air mail, passenger and express service, for which a \$5,000,000 corporation was created in the recent parliamentary session, moves closer to realization when Transport Minister C. D. Howe goes to Montreal for conferences with the Canadian National Railways management.

Armed with the necessary legislative authority, and actually head of the corporation created with provisional officers drawn from his department, Mr. Howe will enter upon organization stage of the task.

The Canadian National Railways are empowered by statute to acquire the entire \$5,000,000 capital, which will be divided into shares of \$100 each. It may dispose to airway companies 49 per cent of this capital but will retain majority control.

No difficulty is anticipated in disposing of the stock that will be offered by subscription. Under the act incorporating the Trans-Canada Air Lines it is provided that carrying rates will be based upon the necessity to earn five per cent, on the investment.

The \$5,000,000 capital will cover Canada's purchase of 24½ per cent.

of the capital in the trans-Atlantic air line proposed in conjunction with Great Britain and the Irish Free State. Great Britain will take 51 per cent of the stock in that company and Canada and Ireland 24½ per cent each. Canada's investment will be \$1,250,000.

It is estimated \$1,750,000 will be required to inaugurate the Canadian trans-continental service and the remaining \$2,000,000 will be drawn on as needed for development.

Within three years, the minister estimated, postal revenues alone will pay for operation of the Canadian service with daily flights every day of the year. Until 1940 the Dominion will pay any deficits that arise in operation and exclusive rights will be given the corporation to carry mails.

Mr. Howe has expressed belief the Canadian service may be established by next September. Imperial Airways will pioneer the north Atlantic service this summer in co-operation with Pan-American Airways of the United States. Head of the latter organization has prophesied the Atlantic service will be established by fall but Imperial Airways have been less optimistic.

**NOTES AND COMMENTS**

**SOCIAL CREDIT** legislators are all "het up" over the conflicting opinions within and without their ranks. The premier tells insurgents either to fall in line or cross the floor of the house and go into opposition. Insurgent Leader Brown replies telling the premier he should cross the floor as he hasn't done anything to institute Social Credit. Apparently disintegration of the Social Credit political structure has set in. The Federal S. C. leader, John Blackmore, states "I do not expect we shall achieve Social Credit in the near future," and commended the insurgents in the Alberta legislature for the interest and vigor they had displayed.

**COLEMAN**, in the Federal constituency of Macleod, is supposed to be represented by a gentleman named Hansell. Since his election the town has not seen him; it is doubtful if anyone has heard from him. But he with others has time to go into British Columbia and take part in the provincial election campaign there, if press reports are correct, as a despatch from Vancouver states ten Federal Social Credit members will address meetings in British Columbia. A member's first duty is to the constituents whom he is supposed to represent.

**THE MODERN** Moses has not yet arisen to lead us out of the wilderness. Many thought he had! Instead, five presumably wise men will go forth into strange lands, if needs be, to discover a savior for Alberta, and Mr. Aberhart. His theory has not worked out in practice. His efforts, without result to date, have been paid for by the people, giving him a much better return than had he remained in the classroom in Calgary. His heels have been rewarded with jobs. The rewards to the "ins" and the penalties to the "outs" have been bestowed along orthodox lines even as the budget. We're not disappointed, because we expected nothing different, and anyhow, a political job is at the best of times a broken reed on which to lean. With a change of government, it is "out you go," as many have gone before.

**THERE ARE** some men with good intentions in the Social Credit party. Take for instance a gentleman named Anderson, who proposes to reduce the number of members, thereby saving much needless expense. It would cut out a lot of meaningless clap-trap, too. He should be backed up. We had experience here of a gentleman, now deputy speaker, who could use scads of high-sounding phrases, that didn't stand for much if you stuck the sharp point of criticism into them. They burst like a toy balloon. Undoubtedly the road to Hades is paved with good intentions.

**MAJOR DOUGLAS** again stalls. While not refusing outright to come to Alberta, he still dangles the bait before the eyes of credulous people. Why is it necessary to send a member of the legislature to England? The farce of Social Credit has by this time become almost played out, and Alberta is paying dearly for it. The statements of provincial and Federal members and acknowledgments of the futility of their dreams convince the masses of the people that they should resign. Not one can explain how Social Credit will work, and Douglas adds to the confusion of adled minds.

**THE JOURNAL** has little sympathy for the resolution of the Imperial division of the Canadian Legion to meddle in the political field. There has been every consideration given to the claims of war veterans, and every deserving claim has been granted. Taxpayers are already paying an immense sum each year in pensions and war allowances, without protest, but they will protest against further raids on their pocketbooks. If some of the agitators who are continually seeking avenues to obtain money without fairly working for it were to use the same energy in seeking gainful employment, they would be helping themselves as well as the taxpayers.

**SOME SUCCEED** where others fail. Concentration in striving towards a goal demands continuous, plodding energy; if you would arrive in any occupation or profession you must pay the price. Its work behind the scenes that enables the performer to demonstrate his ability.

**OCCASIONALLY** there are weeks when trying to make up an interesting local issue is much like trying to make bricks without straw. A dearth of interesting news, a lull in general activity, and backward spring weather give one the inclination to go on a good spree just to liven things up. There wasn't even a dog fight on the main street this week.

**Biting Sarcasm**  
A traveler said to the conductor of a slow American train: "Does this railroad allow passengers to give advice?"  
The conductor replied, gruffly, that he guessed so.

"It occurred to me," said the traveler, "that it would be as well to detach the cow-catcher from the front of the engine and bolt it on to the rear, for what is to prevent a cow strolling into this car and biting one of the passengers?"

## Trustees Meeting

At a special meeting of school trustees, tenders were opened for the purchase of the former cottage school buildings. Only one bid was accepted, that of Frank Aboussafy, for one of the smaller buildings at \$360. The prices bid on the old bank building were far below the reserve price, therefore none was accepted.

A further payment of \$5,000 on the contract price of the new school was ordered paid to J. S. D'Appolonia. A donation of \$100 was made to the Coronation celebration fund.

Considerable discussion took place on assessment for school purposes.

The board decided that truancy officer's work would be undertaken by W. Antrobus for West Coleman and Tom Brennen for Central school. No further expense would be added as the trustees decided that sufficient is now being paid to the caretakers to include this duty.

Regarding use of auditorium for various school purposes, the trustees decided to arrange a meeting of the teachers and the trustees to thoroughly discuss various points regarding same. Friday evening was suggested at which the entire staff would be expected to attend.

Present were Chairman Hope, Trustees Greenhalgh, Fraser and Sharp.

## Stolen Cars Soon Found

A Ford roadster, owned by Roy Upton of Blairmore, was stolen on Friday evening from the front of the Community hall while he was attending the Coleman high school party. A search was made by the town policemen of Coleman and Blairmore aided by the R.C.M.P. and the car was found Saturday abandoned at Blairmore cemetery. No trace of those responsible has been found.

A car, owned by Mr. Tortorelli of Blairmore, was stolen early Sunday morning at Blairmore and found at 10 a.m. Sunday at Bellevue. A man and woman were charged with being in possession of the car without the owner's consent and appeared before Magistrate Gresham who fined the man \$25 and costs and the woman \$50 and costs.

## Football Club Officers

A meeting of Coleman football club was held in the council chamber Sunday for the purpose of electing a full slate of officers. Those elected were: hon.-pres., G. Kellock; hon.-vice-presidents, W. Bell, G. Pattinson, H. McDonald, S. Moores, J. Lipovski, J. A. McDonald, J. O. C. McDonald, J. J. McIntyre; pres. T. McCoy; sec-treas., J. Park; committee, D. Nevey, P. Sharp, J. Moore.

The team will now be known as the Rangers, after the famous Glasgow eleven, and will be represented in the Crow league, a meeting of which will be held shortly, Coleman's delegates being P. Sharp and J. Moore.

## Margaret Robert Graduates

Miss Margaret Robert graduated at the Royal Alexandra hospital, Edmonton, April 8, winning the general proficiency medal, known as the Edith P. Wilson award. Mrs. D. Robert was present at the graduation exercises and spent a week with her daughter in Edmonton. 36 girls were in the graduating class. Miss Robert is a former Coleman public and high school pupil, and hearty congratulations are extended by her many friends on her graduation.

**HOME IMPROVEMENTS**

GOLEMAN WANTS BETTER HOMES

At last we have turned one corner. Now you can go ahead and repair the ravages your home has suffered these past years... worn out roofs, antiquated plumbing, heating and lighting, dingy paint outside and inside, decorating, hardwood floors. Perhaps you have wanted a garage, a cement walk, a fence or an extra room in basement or attic. If so, the time is here when you can really have these home improvements.

## PAY OUT OF INCOME

There is no need to draw on your savings. By the Home Improvement Plan the Government has made money available at the lowest possible rates... only 3 1/4% for a one year loan. That means you can pay out of income just as you would buy a car, a refrigerator or other merchandise on time. The difference is that the rate of interest you pay is much less for these home improvements and there is no "down payment." Provided you own your home and have a reputation for paying your bills promptly you can get a loan of \$100, \$200 or whatever you need for this purpose up to \$2,000. No mortgage is put on your property... just your promise to pay within three years.

## GET AN ESTIMATE

If you really want to keep up the value of your home and make it a more pleasant place to live in, call in your Builder, Carpenter, Plumber, Electrician, or other Tradesman and ask him for an estimate of the cost. He can arrange the loan for you, or you can do this through your Bank. And remember that the reason why these unusually low terms are offered to you is because the Government wants to get while prices are down. So now is your chance.

Loans up to \$2,000 can be obtained for any improvement that will become a fixed part of the property, such as:

Painting	Heating System	Electrical Work	Plastering
Decorating	Modern Plumbing	Roofing	Garage
New Floors	Additions	Alterations	Air-Conditioning
Insulation	Weather-Stripping	Fences	Cement Walks

Investigating a number of petty thefts from McBurney's store, the "Pantry" Cafe, Palm Confectionery, and the breaking of electric light globes on the C.P.R. platform, Chief Antle obtained confessions from boys ranging from 12 to 16 years of age. They have received a warning and if further cases of a similar nature come to the attention of the police, their parents will be summoned to appear before the magistrate.

### Old Newspapers Useful

China Imports Million Dollars Worth  
Yearly From United States  
It is not generally known that old  
newspapers play an important part  
in world commerce. For instance,  
China imports more than a million  
dollars worth of them each year from  
the United States, at the rate of \$16  
a ton. In Hong Kong they are used  
in the making of tropic helmets,  
lanterns, toys, boxes and cardboard  
containers of all kinds. Above all,  
however, these old newspapers are  
transformed into millions of gaily  
colored flags and pennants, for the  
streets and houses of China are  
bedecked with them on every festive  
occasion.

### How To Overcome Piles And Rectal Soreness

If you are annoyed with itching piles  
or rectal soreness, do not neglect the same  
or run the risk of an operation. The  
soreness or painful passages of stool, is  
usually caused by itching and burning  
around the rectum and anal opening.  
It is not a disease, but a symptom, and  
is cured at once. For this purpose get  
from a druggist, a medicine called  
"Anusol". This medicine, which is in  
the form of a small tablet, is used  
internally, quickly relieves the itching and  
soreness, and aids in healing the area. It  
is highly recommended. It is easy to  
use. Simply insert the tablet into the  
rectum. It is not pleasant, but it may be  
had at a reasonable cost.

## THE YELLOW BRIAR

A Story of the Irish on the  
Canadian Countryside  
By PATRICK SLATER  
By arrangement with Thomas  
Allen, Publisher, Toronto.

CHAPTER III.—Continued

Turney's feelings then got the better  
of him. He broke down and wait-  
ed loudly, praying that God would  
prove a guardian to his poor wife  
and fatherless child. The crowd did  
not like the tears. The high-pitched  
cries of women weeping at the mis-  
erable creature filled with the heavy  
voiced of men urging him to keep  
his spirits up.

"Doo-ye lo-ko like a man-hun!"  
boomed Michael, the leather-lung.  
In the pause Turney got a fresh  
bolt on his discourse. He went on  
to tell us he had been a terrible  
character in his day. He had started  
serving the devil by robbing his  
mother of a shilling; and in after  
years, while plundering a castle, he  
had helped wipe out an entire family  
in Spain. He explained that a full  
account of his high crimes was in  
the printer's hands. He beseeched  
every one to buy a copy for the bene-  
fit of his poor wife and child. In the  
hope of getting a few shillings for  
them, Turney stepped back to his  
death with these great lies ringing  
in our ears.

At the foot of the scaffold stairs,  
the other fellow requested the Pro-  
testant minister who walked beside  
him to kneel and have a session in  
prayer. The murderer seemed in no  
hurry to be up to finish his journey.  
The clergyman knelt the stairs care-  
fully, stepping up and down to prove  
them solid and sound. But it is hard  
to convince a man against his will.  
The hangman waited a tidy space,  
and then spit on his flat. He took  
the victim by the scruff of his neck  
and the waist band and hoisted him  
up the stairs, the clergyman lending  
a helping hand. The crowd jeered  
loudly; but once up in open public  
view, the felon's courage revived.  
Hamilton came forward with stiff,  
jerky, little steps; and, in a high-  
pitched voice, announced to us all  
about taverns, particularly on the  
Sabbath.

Then the serious business began.  
The executioners hurried around,  
strapping the legs of their victims  
and adjusting the caps and hammers.  
The culprit assumed a kneeling  
position over the trap and prayed  
to God for mercy.

A loud murmur went up from the  
thousands of throats—"Awe!" as  
the bolts were shot. The two bodies  
tumbled down to dangle on the ropes  
and pitch about. It took Turney  
quite awhile to choke to death. The  
other body seemed to drop limp.

This business of hanging folk  
should be intensely interesting to  
every Canadian of old-country British  
stock. The blood strain of every one  
of us leads back to the hangman's  
noose. Many a man, was smuggled  
out of Ireland to save his neck from  
dredging for the stealing of a sheep.

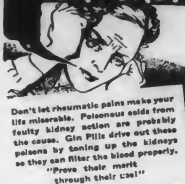

And public hanging had something  
to satisfy it. In the old days, hu-  
man life was of little more account  
than it is to-day; and hoisting bodies  
in the air, and leaving them to rot  
on gibbets, was thought to be a rough  
and ready warning to evil-doers.  
What a pity public hangings were  
ever done away with. Had they  
continued a few years longer, the  
horrible practice of hanging men  
would have passed away under the  
pressure of public opinion.

At any rate, Jack Trueman and I  
profited greatly as a result of Wil-  
liam Turney's speech from the gal-  
lows. We ran off at once for  
copies of his "Confessions" to the  
office of The British Colonist, a  
paper printed on King Street; and we  
went the rest of the day crying  
in the streets and in the taverns  
of Toronto. We refreshed our-  
selves with peppermint bulls'-eyes  
made by Sugar John, who combined  
a tavern with a candy shop on the  
east side of Church Street.

To make it a perfect day, a fire  
broke out that evening in a row of  
frame dwellings at the north-west  
corner of Richmond and Yonge  
Streets. The flames shot up quickly,  
cutting into heavy clouds of smoke.  
Away every one ran to the scene of  
fire. The city had a paid fire  
marshal and several volunteer fire  
companies; but fires were frequent  
that summer; and only heaps of  
smouldering ashes usually marked  
their battle scenes.

The engagement ended that evening  
with a wild charge of one-horse  
carts. Drunken drivers whipped  
their old horses into action half-spit,  
wheeling batteries of water barrels.

arriving at a scene of a fire with a  
punchion of water got a municipal  
guard of 13, Halifax currency. Sub-  
sequently, a fire was done, however,  
on a time basis; and the second find-  
ings arrived in a more leisurely  
fashion.

After a time, the municipal fire  
pump came on the scene. The hose  
was reeled off in lively fashion, and  
attached to a fire pump on the water-  
main at Yonge Street. The volun-  
teers rushed to man the pump.  
They speedily discovered—that  
everyone else already knew—that  
there was no pressure in the water-  
mains after nightfall. A meeting of  
excited ratepayers was held on the  
spot to protest against the wicked-  
ness of Mr. Furnish of the water  
company. But he was there  
himself to tell them, good and plenty,  
he gave the town all that \$250 had  
paid for. There was a great running  
together of newspaper editors and a  
deputation was finally despatched to  
measure the depth of water in the  
company's tank. Meanwhile the  
flames licked up frame buildings at  
their pleasure; and things got so hot  
that the municipal pumping equip-  
ment itself caught fire. An enthus-  
iastic detail of volunteers were busy  
pitching furniture out of upstairs  
windows, and smashing and rifling  
the contents of dwellings in and near  
the general direction of the blaze.  
People grabbed small things and ran  
home with them to save them from  
the fire.

I was watching a party carter in  
a dispute with an open-headed bar-  
rel of water, when the scene closed  
so far as I was concerned. Some-  
thing had happened, but its balance  
in the two-wheeled cart. The  
punchion upset and won the argu-  
ment. The carter disappeared in an  
avalanche of water. He emerged  
spluttering and talking loudly to  
God. At that moment a flying bolt  
mattress caught me fair on the head,  
went to earth beneath its enfolding  
arms. I wiggled out, only to dodge  
a flying jerry mug. I have not  
crossed the briny ocean, thought I,  
but have my head cracked with a dirty  
old thing like that. So I went off  
home; and called it a day.

A large number of negro families  
were living in Toronto at that time;  
and their shining black faces and  
rolling white eye-balls startled my  
young Irish mind and held me in a  
pop-eyed fascination. For years pre-  
viously, fugitive slaves had been  
drifting northward by undercover  
routes; and many of the more re-  
sourceful and enterprising of them  
reached the British line and settled  
in southern Ontario. Public opinion  
was such in Canada, at that time,  
that negroes were permitted to  
cross the border freely, and while  
slavery continued to exist on the  
continent, it remained practically im-  
possible to extradite a black man out  
of Canada on any charge whatever.  
Among the cabins in the southern  
plantations, there had grown up a  
tradition that ran away under the  
North Star could be found a para-  
dise of freedom over which a great  
queen reigned. On first setting foot  
on Canadian soil, the fugitive slave  
endeavored to kiss the bosom of a kindly  
mother; and all would be well with  
her soul had every other immigrant  
to Canada had within him the spirit to  
do likewise.

Just across the way from Mr.  
O'Hagan's there was a colored  
avenue run by Jim Henderson, a  
tavern, deep-voiced negro who told  
thrilling tales of slavery in the  
south. Jim had a weakness for  
fatty fried meats, and to regulate  
his system, he made a practice  
every Friday night, of gurgling  
down the full of a big bottle of cast-  
or oil to the delight of sundry  
urchins who assembled for the occa-  
sion. Rolling his eyes and smacking  
his lips, Henderson would then shut  
his back for a glass of gin to cut  
the oil out of his gullet.

has proven too rigorous for the ma-  
jority of them.

Everything is relative in this life,  
and especially so the element of  
time. A summer takes longer to  
pass in the ensuing days of child-  
hood than does an entire decade fur-  
ther along life's journey. As that  
long summer dragged on, the plague  
came and hung over the town like  
the dread, intangible wrath that  
choke one in a nightmare. There  
was fear and dread in everyone's  
heart; and it was the deep smother-  
ing fear of utter helplessness. We all  
wore little bags of camphor about the  
neck. The angel of death seemed  
to mark at random the door lin-  
ings of the chosen ones. Perhaps the  
death toll of 1847 had been exagger-  
ated; but, in a literal sense, the poor  
died by the hundred. In the summer  
and early fall of 1847, 863 poor  
Irish and in Toronto, and of the 97-  
933 emigrants who sailed from Irish  
ports for Canada in the spring and  
summer of that year, 18,625 souls  
did not live to feel the frosts of a  
Canadian winter.

The plague was a terrible thing;  
but kindly in its way because it was  
swift about its business. One after-  
noon my poor, young mother fell  
ill. She was lying on an old straw  
tick in the corner of the room up-  
stairs. When I found her, she was  
cold and clammy and laid in frightful  
dread. I threw her overboard over  
her and ran for water. Within five  
minutes every other occupant of the  
house had cleared out. Mr. O'Hagan  
set off post haste to bespeak the  
death cart to take her body away.  
I ran around to get Mistress Kitty  
O'Shea. I knew she would help me,  
because she was out night and day  
nursing the sick. She came right  
over, and stayed till my mother's  
body stiffened with the rigor. Poor  
Kitty O'Shea, she died herself the  
day the plague struck down Michael  
Power, the first Catholic Bishop of  
Toronto; and they both laid down  
their lives ministering to the sick on  
the streets of Toronto. Perhaps he  
that sitteth in the heavens has found  
a place among his mansions  
for the soul of Kitty O'Shea!

### A Remarkable Case

Rumanian Has Had No Sleep For  
Twenty Years

Ever since the World War, when  
a bomb from an airplane knocked  
him unconscious, Arno Crane, a Ru-  
manian now 40 years old, has gone  
through life without a minute of  
sleep. He has tried many cures and  
visited specialists in several Euro-  
pean cities but without results. At  
present he is in London taking a  
course of treatment from a special-  
ist who has been unable to help him  
thus far. Crane rests at night but  
never falls asleep. In the morning,  
he takes a cold bath which has the  
effect of refreshing him and for a  
few hours he can work or exercise  
but soon tires. He does not seem to  
to exert himself too much. He  
has had offers ranging up into thou-  
sands of dollars from physicians  
who would like to have his head after  
his death for examination purposes.  
But alive, his earning power is very  
small.

Is The Only Way Poverty Problem  
Can Be Solved

It is as clear as daylight that  
ordinary "relief"—whether in the  
form of private charity or govern-  
ment dole—doesn't change matters  
at all. It is virtually necessary, to  
be sure, but it is what our prob-  
lem really is—Kitchener Recorder.

### Develop European Buffalo

After 10 years of experiments,  
Berlin zoologists have succeeded in  
breeding a type of animal long ex-  
isted in Germany—the "aurochs" or  
European bison. The heads of the  
cattle were crossed to evolve the  
characteristics. The result is a  
small herd of three bulls and 13  
cows.

### B.B.C. Controversy

Magistrates' Association Fears Pro-  
test About Material In Program  
Just where the line for the English  
sense of humor should be drawn is  
the subject of a controversy between  
the Magistrates' Association, repre-  
senting 20,000 justices of the peace,  
and the British Broadcasting Cor-  
poration.

Letters of protest from the execu-  
tive of the association decrying Rob-  
bison's program "M. Middlecombe,  
J.P." in the court of not-so-common  
pleases have been received by the  
B.B.C.

The letters objected particularly  
to dialogue which culminated in  
newspaper reporters and magistrates  
becoming the worse for drink.  
Sir John Reith, B.B.C.'s Director-  
General, replied that the corporation  
had no desire to ridicule the admin-  
istration of justice and pointed out  
the program was so farcical in na-  
ture that it could not be regarded  
as a reflection on magistrates' or  
courts.

Commenting on the complaints,  
the London Star declared: "We  
doubt if all the 20,000 magistrates in  
this country have so uncertain a  
sense of humor that they feel out-  
raged by Robbison's amusing an-  
nals. But we should like to re-  
mind their Worship that they are  
not the only traditional source of  
innocent merriment."

"If their protest succeeds and  
Mr. Robbison is gagged, what is there  
to prevent the Automobile Associa-  
tion from suppressing Harry Tate  
for his gross libels on motorists, the  
mayors of England from taking  
George Robey's poetic license away  
from him, and the House of Lords  
from suppressing a manuscript in Trafalgar  
Square with banners inscribed:  
"Down With Gilbert and Sullivan?"  
"No corporate body should resent  
being made a subject of mirth, for,  
in this matter, we all live by taking  
in each other's washing."

### Solve Many Problems

High Speed Photographs Show Up  
Defects In Machinery

George W. Wray, writing in This  
Week, says an apparatus at the Mas-  
sachusetts Institute of Technology  
takes photographs of the unbelieve-  
able speed of one-millionth of a sec-  
ond. By thus arresting rapid motion  
industry can solve many problems.  
Already hundreds of defects, which  
never show when the mechanism is  
in action, have been spotted in field  
gearing from the behavior of spring-  
ing machinery to the flexing of an  
airplane propeller under the complex  
strains of air resistance and centri-  
fugal force.

High-speed movies of falling drops  
of glycerine and other liquids gave  
new light on the surface tension  
characteristics—an important factor  
in the action of soaps, lubricants, and  
dyes. Studies are being made in the  
mechanics of athletic skill. Driving  
tests were made by a player using  
three golf clubs of different weights.  
Oddly enough, photographs showed  
that the lightest club travelled with  
the highest velocity and gave the  
greatest impetus to the ball.

### Modernized Foods

Blamed For Changes In Civilized  
Man's Physical Appearance

A declaration that inbreeding can  
and does produce healthy and vigor-  
ous descendants offered anthropologists  
a fertile field of discussion.  
Dr. Harry L. Shapiro, of New  
York, pointed to the descendants of  
the famous mutineers of H.M.S.  
Bounty, living on Pitcairn Island, in  
the mid-Pacific, since 1790, and said  
they are "healthy, vigorous and free  
from stigma of degeneracy" after  
generations of inter-marriage.

Modernized foods were blamed by  
Dr. Weston A. Price, Cleveland scien-  
tist, for changes in civilized man's  
physical appearance.

Dr. Price based his contention upon  
a long study of the food and teeth  
of primitive racial stocks.  
He found that primitive racial  
stocks "lose their immunity to tooth  
decay and to associated degenera-  
tions" at their zone of contact with  
modern civilization as they adopt  
modern foods, "including white flour,  
sugar, polished rice and canned  
goods."

"To what do you attribute your  
remarkable health?"

"Well," replied the very old gentle-  
man, "I reckon I got a good start on  
most people by being born before  
germs were discovered, thereby hav-  
ing less to worry about."

Famous swimmer (boastfully):  
I've just signed a \$50,000 contract to  
tour the globe giving swimming ex-  
hibitions.  
Listener: Humph! We have gold-  
fish that do that for nothing.

## KEPT IN BED BY BACKACHE

Now — Thanks To Kruschen  
— Not a Trace of Pain

This woman's life was made a misery  
by the pains of backache. Then  
her father, who had proved the value  
of Kruschen himself, advised her to  
try it. She did, and here is her  
grateful letter.

"For years I have been suffering  
with pains in the back. At times I  
had to stay in bed for days. I could  
not walk, or even stand. My father  
was using Kruschen Salts for the same  
thing. He, too, used to suffer  
badly, and Kruschen relieved him.  
He advised me to try it. I did so,  
and did not get a pain for three  
years. I then neglected my daily dose  
for about six months, and two months  
ago the pain returned. I tried  
another remedy—it failed, so I again  
started Kruschen. Now I have not a  
trace of pain, thanks to Kruschen."

(Mrs. H. F.)  
Pains in the back are usually due  
to impurities in the blood—waste  
products which the internal organs  
are failing to expel from the system.  
The numerous salts in Kruschen  
assist in stimulating these organs to  
healthy, normal activity, and so help  
them to keep the system free from  
harmful waste matter.

### Little Helps For This Week

That ye being grounded in love  
may be able to comprehend with  
all sorts what is the breadth and  
length, and depth and height, and to  
know the love of Christ which  
passeth all understanding, that ye  
might be filled with these organs  
of God. Eph. 3:17-19.

O love that passeth knowledge,  
thou art the life of my soul.  
Four in the heavenly sunshine,  
fill my heart:  
Scatter the clouds the doubting  
and the dread,  
Thy joy unspeakable to me im-  
part.

To examine its evidence, to admire  
its martyrs, to attend its rites and  
services, is not Christianity. But for  
one day or one week to have lived  
in the pure atmosphere of faith and  
love to God, of tenderness to man,  
to have seen earth recede and heaven  
open to the gaze of hope, to have  
seen behind the troubles of this  
strange life the unchanging smile of  
an eternal Friend, and to know that  
everything that is difficult will be  
strange life the unchanging smile of  
an eternal Friend, and to know that  
everything that is difficult will be

### Working On Sign Language

Sir Richard Paget Believes It Will  
Be Internationally Useful

Sir Richard Paget, who has been  
deceiving education by books alone,  
has been working for many years on a  
language for international use. It is  
based on the idea that most words  
have their origin in gestures, which  
are unconsciously imitated by the  
tongue and mouth, and that names  
for the same things in different  
languages can usually be traced to  
the same gesture. His theories were  
once put to the test by a learned  
society at Cambridge. He was given  
a list of 100 Chinese words which he  
had never seen before, and asked  
what they meant. He gave the right  
study he scored hits in 75 per cent  
of them, reports the News of the  
World. By means of some organ  
reeds, rubber tubing, cardboard, bits  
of metal, and a pair of bellows he  
produced a synthetic "voice" for  
which, when he was in conjunction  
with his hands, can say such simple  
phrases as "I love London."

### A Unique Collection

Sixty-Two Pairs Of Animal Horns  
Owned By Vancouver Resident

Eleven pairs of various South  
African animal horns, the remainder  
of a collection of 62 pairs owned by  
the late John Legget of Kimberley,  
South Africa, are in the possession  
of his daughter, Mrs. H. J. Mathers,  
in Vancouver. The value of the  
present collection is estimated at  
\$2,000. Mrs. Mathers said her father  
once sold a pair of horns for \$100.  
The collection includes one pair of  
emblem horns, 2½ inches long, be-  
lieved to be the second longest in the  
world. The late President Theodore  
Roosevelt of the United States at  
one time attempted to purchase them  
for his own collection, Mrs.  
Mathers said.

According to an explorer, a tiger  
will not harm you if you carry a  
white walking cane. That might de-

# Tragic Death of Mrs. E. Jones

Her Daughter Megan First to Find Body—Wide-spread Sympathy for Family Finds Spontaneous Expression Throughout District.

Heartfelt sympathy swept over the town this afternoon (Thursday) when the tragic death of Mrs. Elias Jones became known. Her daughter, Megan, returning from Central school, where she is a teacher, finding her mother absent, was informed by a maid, Hilda Polak, employed at the Jones home, that she had gone to call on a neighbor, having left at 3.40 p.m. Her husband had gone to his work at International mine at 3 p.m. Megan, finding her mother had not been there, by a strange prompting walked towards the river. At the swimming hole in West Coleman she discovered her in a shallow depth of water, and pulled her to the bank.

She immediately went to the telephone in M.W. Cooke's home and summoned Drs. Borden and MacLean. In the meantime Mr. Cooke and a young man named Kanik applied artificial respiration, without result. The doctors pronounced life extinct.

Deceased's birthplace was Merthyr Tydfil, South Wales. She was 52 years of age, and came to Coleman in 1925 with her husband and son and daughter, Davey and Megan. One daughter, Eira, was born here. Late last year she underwent an operation, which left her in a weakened condition. Plans had been made for a trip to her former home in Wales in the hope of it benefitting her. Her daughter

ter had been granted leave of absence to accompany her.

Coroner A. M. Morrison decided an inquest was unnecessary. Funeral arrangements are in charge of A. E. Ferguson, Crows Nest Pass Funeral Home. Service at 2.30 p.m. Sunday in St. Paul's United church.

## J. E. Gillis' Sudden Death

The sudden death of J. E. Gillis, well-known barrister of Blaimore, was announced late this evening (Thursday.) He was here on Wednesday appearing in court for a client, and appeared to be in splendid health, and chatted quite freely and cheerfully with a Journal reporter. He was seized just as he was preparing for bed and passed away almost immediately. The funeral will probably be held on Monday at Blaimore. His wife and son Donald survive.

## Borden and McLean Retain Contract

A general meeting of Coleman Miners Association called to consider the report of the hospital committee on applications for the contract, (two-year-term,) of over 40 applicants, decided to ballot on the following: Drs. Coddington and Wallace, Drs. Borden and MacLean (the present doctors,) and Drs. Maynes and Jones.

Applications were received from all western provinces, from Winnipeg to Vancouver Island. The ballot taken on Wednesday resulted in Borden and McLean receiving 541 votes, Coddington and Wallace 222, Maynes and Jones 38, spoiled ballots 23. The contract is for two years, as formerly.

## Local News

BORN—To Mr. and Mrs. Robt. Lowe (nee Maureen Cooke) on Saturday, April 17, a son.

No matter what service or product you offer the public, good snappy printing will help.

Miss Anne Kahout returned home recently after visiting relatives at Clarendon and Calgary for the past two months.

Mr. John Van Maarion, chief engineer for the city of Lethbridge, motored with his family to Coleman on Sunday where they were the guests of Mr. and Mrs. M. W. Cooke.

Mrs. Steve Penny left on Tuesday's train for her old home in England where she will visit relatives for a few months. Many friends were at the station to bid her bon voyage.

The First Coleman Rangers will hold a tea and pantry sale on Friday, April 30, from 3 to 6 p.m., at the home of Mrs. Borden, proceeds to be donated towards the Coronation program fund.

Lieutenants Fitch and Frayn, the energetic officers of the Salvation Army, are making preparations for the 22nd anniversary of Coleman Corps. Major Acton, who was the first officer here, will take part.

Parties interested may secure a copy of the syllabus of the Crows Nest Pass musical festival from Mrs. J. H. Farmer, Blaimore. It was printed this week by the Blaimore Enterprise and is a fine piece of work. Festival dates are Nov. 1-23.

Hugh McLellan received painful cuts to his arm on Sunday evening when he was thrown from his bicycle into A. Gentile's front window on Main street. Several stitches were required to close the gashes caused by the broken glass.

Joe Fauville one year ago started the Ayshire Dairy in Coleman, and during that time has increased his business till he now has 13 head of fine Ayshire cows. Last week he purchased two registered cows from R. A. Ober of Picture Butte.

Ken Blain has been appointed assistant manager at the new Norge Appliance Shop which opened at Lethbridge last Saturday. Mrs. Blain and son are at present visiting friends at Lethbridge and expect to reside there permanently as soon as Mr. Blain secures housing accommodation.

Doctors Hamilton and McDuff, of the Workmen's Compensation Board were in Coleman Tuesday and examined a number of miners who are at present on compensation. Doctor V. C. Wright, chairman of the Board, and Dr. Rose, claims officer, made Blaimore their headquarters while in the Pass Tuesday, three miners from Coleman coming up before them on compensation matters.

## United Church

Plans for the 31st anniversary are practically complete and the details will be in the hands of the congregation in a few days. The last lantern service for the season will be held on Sunday evening next. This lecture will set forth the mind of the Oriental viewing the Home Mission work of the church. This will be quite worth the effort in order to be present.

A special order of service has been prepared by the church officers to be used on May 9 as a Coronation service.

There was a heavy exodus of hockey fans last week to the Allan Cup games in Calgary. Among them was "Bill" McGrath, who took a respite from his tansorial duties in Graham's barber shop to get a real thrill. Leaving here in the afternoon in company with a number of friends, a quick trip was made, and the party returned next day. Even though it was very hurried, they all felt it was worth it to see the championship teams in action.
